

Risk Assessment

The Coastal School leaders will do a dynamic risk assessment before each session and take a sweep of the site.

Dynamic Risk Assessments will be done throughout each session in case conditions should change.

Date 18/09/2023

Activity Risk Ratings						
Method	Rating the harm and the likelihood				Risk Evaluations	
Consider how hazardous this activity is and if enough has been done to control risks. <i>If required</i> , record a residual risk evaluation (see right & KAHSC Evaluating Risk (ratings guide) for more information). Find the residual or leftover risk after putting controls in place by rating the <i>probable consequences</i> from interacting with identified hazards (no injury 0 to fatality 5), the likelihood of harm arising (never 0 to certain 5) and multiplying them to find the risk rating.	Consequences	#	Likelihood	#	RISK RATINGS	EVALUATION
	Insignificant - slight injury/illness	1	Very unlikely	1	Unacceptable (17-25):	
	Minor - minor injury/illness or multiple slight	2	Unlikely	2		
	Moderate - serious injury/illness or multiple minor	3	Fairly likely	3	Tolerable (10-16):	
	Major - major injury/illness or multiple serious	4	Likely	4		
	Catastrophic - imminent danger of death/epidemic	5	Very likely	5	Adequate (5-9):	
					Acceptable (0-4):	

HAZARD	WHO/HOW	LEVEL OF RISK	CONTROL OF RISK	ACTION BY WHOM
Water	Anyone Drowning	5	Only enter water up to knee-height under supervision	Verbal direction by Sea-Safety Officer
Uneven ground	Anyone Trips/falls	6	Correct Footwear Verbal warnings	CCS officer Participants
Plants	Anyone Poison/stings	4	Verbal warnings Antihistamine	CCS officer
Beach detritus	Anyone Damage to skin	6	Verbal warnings First Aid Kit	CCS officer

Done before and during the session

Fire Safety Risk Assessment

HAZARD	WHO/HOW	LEVEL OF RISK	CONTROL OF RISK	ACTION BY WHOM
FIRE	Anyone Scalds, minor burns, major burns	10	Rules for actions and behaviour around the fire. Marked out no go area and seating at least a metre away from fire pit.	CCS officers and other adults to keep reminding participants of rules. Water and fire blanket to be available also aloe vera plant.
